

Pick-n-Save Booth Guidelines

All events are to be hosted outdoors. We are unable to allow groups in our vestibules or other parts of the store. Participation should be limited to a maximum of 4 people (as a maximum of 2 adults and/ or 3 children). We are unable to make exceptions to these guidelines.

Members on-site for the event will need to do the following:

- Be free from any Covid-19 symptoms (as defined by the CDC) at the time of the event
- Wear face coverings covering both nose and mouth mirroring Pick-n-Save's store policy
- Social distancing six feet from those outside their household including within their organization
- Limit interaction time with others to what is necessary

The troop will need to:

- Provide hand sanitizer to be made available to their organization and those they interact with
- Cleaning high touch surfaces with a disinfectant at a regular interval during the event as well as before and after.

Please be respectful and comply with these guidelines. Pick-n-Save's Supermarkets operates stores in many municipalities and partners with local health departments. We are subject to fines and other penalties for not complying with guidelines such as those listed above. If selling groups are not willing or able to meet these expectations, Pick-n-Save's Supermarkets reserves the right to end events at store locations.
